

Today's best choice for innovative shaping and reliable functionality.

Aluminum Aerosols from CCL Container.

The Unmatched Advantages

CCL Container aluminum aerosols are strong, durable and flexible. They eliminate package corrosion frequently associated with outdoor and high-moisture environments. Lightweighting with aluminum is an ideal way to increase the economic efficiency of product packaging while providing for infinite recyclability without any degradation to its material quality. With its exceptional decorating and shaping capabilities, aluminum creates greater brand awareness on store shelves and drives consumer preference at point-of sale. CCL offers an extensive range of aluminum aerosol container sizes in diameters from 35mm to 76mm, and heights from 70mm to 265mm.

Available with a variety of internal liners, CCL aluminum aerosol containers are ideal for a broad range of products, including:

- Air Fresheners
- Automotive Care & Maintenance
- Fire & Safety
- Food & Snacks
- Health & Beauty
- Household Cleaners
- Lawn & Garden
- Personal Care
- Suncare

Designing & Decorating

CCL Container offers a broad range of shaping and decorating capabilities for aluminum packaging, resulting in a whole new world of design possibilities for your brand:

- Dramatic curves and contours over the full container length
- Embossing and debossing of graphics, patterns or logos
- Multi-color lithography up to 9 colors plus base coat
- Texturing to specific areas or the entire container surface
- Outstanding halftone and duotone reproduction capabilities
- Fluorescent decorating for eye-opening packaging

CCL Container is a division of CCL Industries.

CCL Container is North America's leading manufacturer of recyclable aluminum aerosol cans.

We offer an unsurpassed combination of experience, expertise, resources and capabilities for the development and manufacturing of innovative, brand-building aluminum containers. Complementing this are CCL Container's equally impressive shaping and decorating abilities.

CCL Container operates three manufacturing facilities in North America, all of which are ISO 9002 Registered. By combining a fully staffed Package Development Team with ever-growing manufacturing technology and expertise, CCL Container continues to produce many of the finest aluminum containers in the world.

Contact your CCL sales person or request samples for compatibility testing.
